The Man Who Lived Nine Lives Experience™

Stage & AV Rider

The Man Who Lived Nine Lives Experience is a speaking and multimedia presentation that uses animated visual and audio effects to bring real-life experiences to life and immerse the audience into that experience. To deliver this unique storytelling presentation the following Audio-Visual components are required.

- Projection Screen with HDMI connection for synchronized slide animations
- Ability to remotely control a PowerPoint Presentation
- Wireless Hands-Free Microphone (Lapel or Headset)
- Professional Audio Output for synchronized video/sound FX.
- Podium
